TECHNICAL COMPETENCIES

- Core Java
- DSA
- React.js
- javascript
- html
- css
- node.js

EDUCATION

Btech CSE

**Dehradun Institute of
Technology, Dehradun**

2020-2024
ongoing

Current CGPA-8.3

12th Board

**Shri Digamber Jain Senior
sec. school, Sikar**

2018-2019

Passed with 85%

INTERPERSONAL SKILLS

- Active Listner
- Adaptability
- Team Work
- Relationship-building

PROFESSIONAL SUMMARY

As a highly goal-oriented and adaptable person, I possess a strong work ethic and a passion for learning. With experience in various settings, I have developed excellent communication skills, a proactive attitude, and a keen eye for detail. My ability to work both independently and as part of a team allows me to take on challenges with ease, and I thrive in fast-paced environments. Additionally, I am eager to expand my knowledge and skills, and I am committed to achieving success in any role I undertake.

PROJECT

Street Fighter Game

- Created a 2D Street Fighter game using Java and the Swing framework, implementing a variety of game features such as character selection, fighting mechanics, and special moves.
- Utilized object-oriented programming principles to design and implement a scalable and modular game architecture, allowing for easy expansion and maintenance of the codebase.
- Implemented player controls and user input handling, providing smooth and responsive gameplay.
- Tested and debugged the game thoroughly, utilizing various tools and techniques such as unit testing and error tracking to ensure a stable and bug-free release.
- Implemented collision detection and physics simulations, allowing for realistic interactions between characters and the environment.

Real Time Chat application

- Developed a real-time chat application using React and Firebase, enabling instant messaging between users.
- Implemented features such as real-time message updates, user authentication..
- Designed and implemented the user interface using React components and styled them with chakra UI.
- Integrated Firebase Authentication for user registration and login functionality.
- Utilized Firebase Realtime Database for storing and retrieving chat messages in real-time.

CERTIFICATIONS AND AWARDS

- core Java
- Programming with JavaScript
- Web Development
- Introduction To AI
- Programming Foundations with JavaScript, HTML and CSS
